RE: APPLICATION FOR WORK INTEGRATED LEARNING IN THE GREEN INDUSTRY

As part of our National Diploma in Horticulture and Landscape Technology, students need to complete a year of Work-Integrated Learning. Two semesters, from January to June (21 weeks) and July to December (21 weeks) or as per company / organizational requirements. The student will register per semester at TUT.

In short this means working at a company or organization in the green industry gaining knowledge and experience. This forms an invaluable part of their education and better equips them to become a success in the work environment.

There is no formal list of competencies that is specified as this depends largely on the operations of the company or organization involved, however the student should gain a broad understanding of the operation of your organization. Even relevant administrative tasks are important experience. The student is expected to hand in a written report for each semester. This report should provide written and pictorial evidence of the tasks the student has performed. This will be done under the supervision of the WIL Coordinator at TUT and a mentor in your organization.

It would be a wonderful opportunity if your organization would be prepared to offer the bearer of this letter such a 'working and learning' position.

This letter serves as introduction and hopefully we can build a successful partnership that is beneficial to both parties.

Please feel free to contact me for any further information.

Thank you for your consideration in this regard.

Kind regards

Dear Sir/Madam

APPLICATION FOR EXPERIENTIAL LEARNING PROGRAMME

A committed and well-motivated 3rd year student at Tshwane University of technology who aspires to be vested with responsibility where he will be able to interact with colleagues on a daily basis and broaden his intellectual capacity, who is open to learning and growing, with very good communication skills, a clear and friendly voice and highly motivated with the desire to make a difference. I always been an individual who goes an extra mile, and my academics are of my primary importance.

Even at school when the courses imposes significant pressure or the need to put on extra hours, I am able to deliver on the workload and possesses a strong ability to perform effectively and meet the tightest deadlines, always striving to carry himself out through hard work.

Above and beyond my experience and capabilities I have been commended for my high level of interpersonal skills and my naturally engaging personality. My motivations include learning new things, the challenge of meeting the needs of an organisation, and ensuring high-quality outcomes.

I believe that I would an asset to the company. This Experiential learning would provide me with ideal opportunity to assist your organisation and expand my skill and knowledge on the background of the industry

Looking for an opportunity to put my personal attributes in a platform that would add value to the country as well as well as enhancing and broadening my perspectives as a young person and learning as much as I can from others, very punctual and goal orientated as I believe the only way possible to making success of my life is through continuous hard work that would eventual add up to something great.

Yours sincerely

Mpyane Phaswane Herman.
