### Focus

*I have been fascinated by philately since the age of 7, collecting became a passion as much as presenting my work through exhibitions.*

*I am a very sports and energetic person, I like sport and more particularly dance and badminton.*

*Being used to large spaces, I feel in my element whether it is with animals or under a tree.*

*Objet : Application from, for a two-month internship in landscaping design (15th June – 31th August)*

Dear Sir or Madam

We currently are two students in a three-year university postgraduate program leading to landscaping engineer diploma, in ITIAPE (LILLE , France).

In order to validate our second year, we have to do a two-month internship in a design office specialized in landscaping. We both want to take this chance to discover Australia. During our internship, we need to focus on a project. This project needs to take place between the 15th of June and the 15th September 2018.

I am actually completing a 3 year training in a landscape school at ISA Lille in France. During this formation, I have to do 8 weeks as trainee in a foreign company. The goal of those 8 weeks are to improve my English, to learn a new culture and different work method.

I have recently graduated from BTEC Higher National Diploma specialized in landscaping. During my training, I collaborated with many firms. I learned to design landscapes, gardens and other spaces. I realized projects whether it is in agroforestry, or in the creation of a therapeutic or factual garden.

At Pinson Paysage, a French company specialized in landscaping, I was in charge of organizing the database, I select notices of tender and evaluate the cost. During my apprenticeship, I worked on the sites of Village Nature, football stadium or departement of marine.

Working in your company could be a real opportunity for us to learn about our passion from another viewpoint as well as to improve my English language. My knowledge and my experience in the urban landscape should be a benefit for you and by working together on joint problems, I would improve my technical skills.

My rigor, my dynamism, and my ability to communicate will allow me to make the various tasks which can be expected from me.

Please find enclosed my resume for your consideration.

If you have any question, please contact me at +33 6 47 11 48 45 or [pauline.ragot@isa.yncrea.fr](mailto:pauline.ragot@isa.yncrea.fr). I am available for an interview at your convenience.

I am looking forward to hearing from you.

Sincerely,

**Pauline RAGOT**
